Item # WCSCP0375, Semi-Hermetic Water Cooled Chillers with Pump (WCSCP Model)

QUOTE

- Microprocessor controller
- Industrial duty system process pump
- 316 Stainless Steel (copper brazed) plate evaporator with 2" insulation, and secured in a steel bracket (Models: WCSCP0014 through WCSCP0155)
- Shell & tube chiller barrel (Models: WCSCP0190 through WCSCP1275)
- Water flow switch
- Control circuit fusing
- 24V control transformer
- Removable / hinged access panels
- Semi-hermetic compressor with crankcase heater
- Compressor contactors
- Compressor vibration eliminators & spring isolator kit
- Compressor oil safety control
- Condenser(s): shell & tube
- Liquid line drier, sight glass, solenoid, TEV
- Replaceable core liquid line dryer (Models: WCSCP0190 through WCSCP1275)
- Galvanized steel sheet metal cabinet & base frame
- 1/2" insulation on all water and refrigerant suction lines
- Complete refrigerant charge from factory
- Computerized, factory run test under load conditions

Specifications

Heat Load	375600 Btu/hr 109.98 kW
Voltage Availability	208/3/60 230/3/60 460/3/60 575/3/60
Type	300
Chiller Type	Water Cooled
Condenser Type	Water Cooled
Includes Pump	Yes
Includes Tank	No
Cooling Capacity	31.3 Tons

Standard Flow Rate US	75.1 gpm
Compressor Type	Semi-Hermetic
No. of Compressors	2
Nominal HP (ea)	15 hp
Pump HP	2 hp
Length	85 in
Width	34 in
Height	60 in
Process Water Conn. NPT	2.5 in
Weight	1820 lb 827.3 kg
Fan HP (ea)	CF hp
