

TRUE POTENTIAL TO INCREASE YOUR PROFITS.

with

THE PHLAUER™ HIGH PERFORMANCE MIXER
— THE ULTIMATE PERFORMER FOR COLORED CEMENT PRODUCTS —

PERFORMANCE GUARANTEED*
PREDICTABLE, REPEATABLE, RELIABLE

- **ACCURATE MIXING TO CV 5 IN ONE MINUTE** means color is always the same, around the tile, bag to bag, batch to batch. (Patented rotor)
- **AGGRESSIVE SHEAR DEVELOPS EVEN NON-SANDED STREAK FREE.** Shear- makers work in a notched path in the rotor. An exclusive feature is that the rotor is compensated to retain the same mixing action.
- **SAVE PIGMENTS 5 TO 17%.**
- **LOAD AUTOMATICALLY AND/OR OVER THE SIDE.** Less space required.
- **SEALED MACHINE—REQUIRES DUST COLLECTION ONLY FOR MANUAL LOADING.** With the plenum connection, this reduces material in dust collector
- **VARIETY OF DISCHARGES**
- **LOW HORSEPOWER AND LOW MAINTENANCE.**
- **LOW INVESTMENT**
- **CUSTOMIZED FOR YOUR EXACT NEEDS INCLUDING THE HOPPERS & CONTROLS**

*See our T&C article 5.

SEVERE DUTY CONSTRUCTION FEATURES SPECIFICALLY FOR THIS INDUSTRY: Availability to work rated at 99.8%.

- **PADDLES AND HOUSING SIDES OF 450 MIN. BHN HEAT TREATED ALLOY PLATE**
- **REVERSE KNIFE EDGE SEALED COVER FOR FLUSH TOP TO LOAD BAGS.**
- **STAND-UP HEAVY DUTY PIPE GRATE**
- **SEALS THAT LAST AND EASY LOW COST REPAIR:**
Some customers PM just once per year.
- **ROTOR SEALS ARE SPECIALLY DESIGNED PACKING GLAND, SPRING LOADED, OVER A HEAT TREATED SPLIT REPLACEABLE SHAFT SLEEVE.**
End plates and rotors are re-straightened for proper seal presentation.
- **SHEARMAKER SEALS ARE PATENTED CONTROLLED ORIFICE SEALS AIR-PURGED (COSAP).** The sealing is just a film of air.
- **DISCHARGES ARE 8:1 RATIO AND SELF ADJUSTING**
- **EASY TO CLEAN**
- **HIGH VOLUME. EACH SHEARMAKER WILL DEVELOP 12.5 CU. FT. (350 LITERS) OF RED IN 3 MINUTES IN NON-SANDED MATERIAL. SANDED AND LIGHTER COLORS ARE FASTER.**
